The Honorable Jack Reed
United States Senate
Washington, DC 20510

Dear Senator Reed:

We are writing in support of S.536, the Cybersecurity Disclosure Act of 2017.¹

The Council of Institutional Investors (CII) is a nonpartisan, nonprofit association of employee benefit plans, foundations and endowments with combined assets under management exceeding \$3 trillion. Our voting member funds include major long-term shareowners with a duty to protect the retirement savings of millions of workers and their families. Our associate (non-voting) members include a range of asset managers with more than \$20 trillion in assets under management.²

Investors are looking to company boards for leadership in addressing the risks and mitigating the damage associated with cyber incidents.³ CII believes that “[e]ffective cybersecurity risk management starts with the board.”⁴ We, therefore, applaud you for pursuing S.536 and for doing so in a bi-partisan manner. CII strongly supports the stated goal of the bill to “promote transparency in the oversight of cybersecurity risks at publicly traded companies.”⁵
